MEMORANDUM TO THE CHIEF, FOREIGN BROADCAST INFORMATION BRANCH

SUBJECT: Special Reports

25X1A

1. With reference to our discussion with [REDACTED] regarding targets for special information, it occurs to me that you might suggest that OCD inquire whether the State Department, and possibly others, may be interested in special coverage on the Report of the United Nations Committee to the General Assembly on Palestine. This report, which must be ready by the first of September, will undoubtedly be one of the most controversial and potentially dangerous that the United Nations General Assembly will deal with when it meets September 15. I am sure that some of our customers are interested in this subject, although they may not as yet have gotten around to the point of notifying you of their interest.
2. This is the type of suggestion which I envisage your editors making to the Requirements Branch of OCD whenever your situation is so stabilized that you can assist OCD in this manner.

/s/ Lyman B. Kirkpatrick, Jr.
